Student Name: Harshavardhan Anil Bamane

Student PRN: 22510112

Mastering DSA

Comprehensive Guide to Data Structures and Algorithms

[About the Course](#) [Course Outline](#) [Instructors](#)

About the Course

This course provides an in-depth understanding of Data Structures and Algorithms, essential for mastering coding interviews and competitive programming.

Course Outline

- Module 1: Introduction to Data Structures
- Module 2: Array and Linked List Implementations
- Module 3: Stack, Queue, and Recursion
- Module 4: Trees, Graphs, and their Algorithms
- Module 5: Advanced Algorithms and Problem Solving
- Module 6: Final Project and Interview Preparation

Instructors

BASHIRAHAMAD MOMIN

An experienced Engineer and educator with a strong background in Data Structures and Algorithms as well as development.
